

Personal Injury Claims

Our law firm handles all types of personal injury claims including but not limited to Automobile Accidents, Motorcycle Accidents, Wrongful Death cases, Dog Bites, Slip and Fall injuries, Medical Malpractice Claims, Product Liability Claims and all other types of injuries cause by the negligence of another person or entity. The law provides specific remedies to compensate persons who have been injured in these types of accidents. In addition, remedies are sometimes available to the families of persons involved in such accidents. This law firm provides injured Clients with a free initial consultation to discuss the remedies that may be available to you as a result of your accident. Moreover, we will discuss the intricacies of your injury as well your claim and the claims process. The value of your claim can be compromised if it is not handled properly from the outset of the accident. It is, therefore, imperative that, when you are involved in an accident, you seek legal representation immediately. Moreover, until such time as you retain the services of an attorney, you should refrain from making any admission of liability for the accident and you should refuse to give any oral or written statement to an insurance agent or adjuster representing your insurance company or the insurance company of another party. Furthermore, should you proceed through the claims process without an attorney, you may feel pressured to accept a settlement that is not in your best interests. As part of our representation, we will assume responsibility for negotiating on your behalf with the insurance company or other responsible party. If no reasonable settlement can be reached, we will then discuss with you the feasibility of pursuing litigation to obtain those benefits to which you may be entitled. Ordinarily, we accept personal injury cases on a contingency fee arrangement. Under this type of fee arrangement, you will not be required to pay a fee for our services unless we recover money for you. If a recovery is obtained, our fee will be calculated as a percentage of the ultimate recovery.
